

Team player and results-oriented, problem solving and analytical Software Engineer with data-base experience and design. Skilled in data visualization and incorporation of API into projects. Electronic Engineering background, construction management skills, planning and a diversity at work enthusiast.

EXPERIENCE

**Software Engineer** - Enara Health. San Mateo, CA  
03/2018 – Present

- Responsible for the development of new applications to improve the patient experience while tracking their progress on their weight loss program
- Integrated external APIs to complement application tools information
- Built patient dashboard to show lab results using visual data
- Developed a Clinical Dashboard to help Primary Doctors and Dietitians to track their own progress by using data analytic tools
- Led the drive to implement a HIPAA compliant lab results data-base and complemented it with a web-tool to input lab records for each patient
- Supported the creation of an automated patient eligibility system that reduced time spent over the phone with health insurance companies by 85%

**Web Developer** - J. Villalobos Consulting. San Francisco, CA  
10/2017 – Present

- Participated in communications and interactions with costumers to understand their website requirements
- Planned and designed website mockup ideas to present to customers
- Led the design of websites for a commercial flooring company and organic produce distribution company
- Designed algorithms problems required for specific tasks required

PROJECTS

**Enara Patient Dashboard**

Application that allows patients to track their weight progress and lab results while engaged on their weight loss program. Charts and InBody API were used to gather and show visual data recorded on their scheduled visits to the clinic.

**Enara Clinic Provider Dashboard**

Application that allows dietitians and doctors to track the performance of the company in terms of patient activities, the amount of patients signed up with the program and overall performance of each member of the team.

**Anderson Commercial Flooring Website**

Website for a commercial flooring company based in Oakland, CA.
