EXPERIENCE

Wayfarer: A M.E.R.N. (MongoDB, Express, React, Node.js) stack application that lets users share their travel experiences through posts related to a specific city in the world. This was a team work effort.

Kumu: A Ruby on Rails application that lets students share notes they take while assisting to class, including Markdown notes. Also, be able to vote on their favorite ones. This was a team work effort.

Wheely-Ride: A M.E.N. (MongoDB, Node.js, Express) application that lets users share their favorite bike ride routes using Google Maps API and being able to change it dynamically. This was an individually created project.

WORK HISTORY

Climb Real Estate, Keller Williams SF (Nov 2015 – Jun 2017) - Sales Associate

Rent, sell and purchase of properties in the Bay Area. Effective networking lead generation, market study reports and client satisfaction.

Emporia Capital (Sep 2012 – May 2014) – Project Manager

Administered a construction project by implementing budget and being in charge of logistics, material purchase and bookkeeping. Managed the construction team and all stages of the project.

Tellus South (Jun 2012 – Sep 2012) – Site Supervisor & Business Administration

Material quality/quantity assessment and personnel supervision. Implemented invoicing, bookkeeping and tracking system by calculating the volume of each of the dump- trucks bringing material on-site.

Envirologix Panamá (Sep 2011 – April 2012) – Sales and Business Management (board member)

Development, analysis and research for a special roof coating product to decrease high temperatures in buildings. Marketing, sales and on-site application process and planning.
