PROFESSIONAL SUMMARY

Results-oriented and self-motivated Software Developer with a bachelor's in Electronic Engineering and professional experience developing Full-Stack applications including websites, data analytics/data visualization dashboards, and several independent projects that include iOS development. I have most recently engaged in workplace management to round out my skillset while allowing flexibility to complete a Computer Programming Certification at CCSF. There I have gained skills in Java, SQL and NoSQL Databases, Data Structures, JSON, XML, and Unix/Linux Operating Systems. In addition to the above, I have experience leading project management and business administration.

SOFTWARE SKILLS

JavaScript | Java | jQuery | HTML | CSS | Node.js | iOS | MySQL | MongoDB | React.js | AJAX | REST API | GitHub | Bootstrap
Ruby on Rails | Responsive web design

WORK EXPERIENCE

Workplace Experience Coordinator | MICROSOFT – San Francisco, CA | April 2019 – Present
